

## TG Campus™ A Brief Run-up

For TG Campus™ provides a one stop solution for online education via a cloud-based platform and is one of the first such platforms. Designed using the best digital technologists and academicians from US and Singapore.

Students, Teachers, Institutes and even Parents can all be present on the platform and work together to holistically develop each student's growth and progress towards quality education. Customized tutoring environment, cloud computing features, live classrooms and real time interaction via audio, video and chat ensures an environment dedicated to learning exclusively.

## Why TG Campus™?

## Assessments, tests with automated & personalized grading

Assess your progress with online tests with automated grading. We have simplified the process at TG Campus™ with our automated grading systems to reduce human error.

## Re-usable course content

Instructors and Teachers need to create courses one time only. You can then reuse the same course content for multiple batches. Tutors can even buy readymade content from TG Platform reducing their efforts.

## Recorded sessions for revisions & references

Live Sessions are recorded on TG Campus™ for future reference. Students can request recorded sessions for revisions & references.

## In built communication capability

Regular SMS & emails about any important updates and events such as lecture schedules, test, assignments and results are sent to the students and their parents.

## Cloud computing for course & content creation

All courses, assessments, projects and content is generated and stored via cloud computing processes.

## Who Can Benefit & How?

### INSTITUTIONS

- State-of-the-art cloud based online platform
- LMS with easy tracking and scheduling
- Effective resource utilization
- Seamless expansion with significant
- Cost savings
- Own customizable microsite for branding

### INSTRUCTORS / TEACHERS

- Saves time & commute
- Multiple Teaching Aids
- Reduced effort
- Improved earnings
- Create your own customized online courses

### STUDENTS

- Saves time & commute
- HD Recording of sessions for future
- Reference and/or review
- Classwork, Homework and Assignments
- Automated Evaluations
- Self-Paced Practice sessions and Tests

### PARENTS

- Cost effective
- Flexible schedules
- Active participation
- Alert intimation
- Monitor students' growth
